All Inclusive Physician Directed Wellness Programs

Are you frustrated trying to free yourself of 10 pounds, 50 pounds or over 100 pounds? LifeWeigh can help you achieve your goals of Healthy Living.

Are you worried about the risks of Diabetes, High Blood Pressure, Elevated cholesterol and Triglycerides, Heart Disease, Joint Problems, Infertility or Sleep Apnea? At LifeWeigh, we understand the many physical, emotional and psychological issues caused by excess weight. We help you achieve a new outlook on life through a combination of healthy living tools and weight loss programs. We can help you lower the risks of many diseases or comorbidities that are associated with or due to your excess weight.

A Partnership in Effective Weight Loss

Why should you trust that our programs can work when others have failed you?

The certified and experienced weight-loss professionals at LifeWeigh work together in a team approach to help you develop and attain your weight loss goals. Our program is designed to teach you healthy living behaviors that can last a lifetime.

Your team consists of Physicians, Dietitians, Exercise Physiologists, Therapists and most importantly - YOU!

As your partner, we'll help you make informed decisions about realistic lifestyle changes.
