WELCOME TO LIFEWEIGH BARIATRICS

Everyone at LifeWeigh Bariatrics (LWB) is looking forward to your first visit to our center and to help you achieve your weight loss and health goals. Whether you decide to go the surgical route, or the non-surgical route, managing weight is not an easy task. We would like to be your partner to help you decide which path is best for you, and to support you along every step of the way. We have gathered as much information as possible to help you get started.

If you have questions please call us at 866-922-4LWB (4592).

Please complete this packet and return to the office before your first appointment.

Our Staff practices a comprehensive holistic team approach with multi-disciplinary medical caregivers who participate in the diagnosis and ongoing treatment of patients who struggle with weight. Our mission is to assist each patient in achieving their weight loss and health objectives through comprehensive care and education of unmatched quality and value.

Due to high patient demand and limited availability of appointments, we have instituted a $250 no-show fee. You must give advance notice to cancel or reschedule your initial consultation.

Also, please note: Any future appointment no-shows (after your initial consultation) will result in a $50 fee.

Congratulations on beginning your weight loss journey. We look forward to seeing you soon.

FIRST APPOINTMENT CHECKLIST

Please bring the following documents to your first visit:

☐ Completed Patient Questionnaire (you must return this portion prior to your appointment). This information helps LWB customize a weight loss program especially for you.

☐ Insurance Card and related information (you must return this portion prior to your appointment):

Please call your insurance company before your first visit to inquire about benefits for weight loss surgery. Please document the date, time you called and who you spoke with. The insurance section of this packet is important to getting your weight loss surgery approved. The more information you can help us provide to the insurance company, the more likely they will approve surgery.

☐ Please include a summary and documentation (if available) of all weight loss attempts

  o If you have been to a non-physician specialist or program that may have instructed you on dieting or healthy eating habits please obtain all notes (even if they are just notes documenting your weight) from your past visits. Notes from the past 5 years only are needed.

    Example:

    • Visits with a Registered Dietitian
    • A supervised weight loss program such as Jenny Craig or Weight Watchers

☐ Provide recent office notes from your Primary Care Physician and consultation notes from any other medical specialist you have seen (i.e. Cardiology, Orthopedic, and Pulmonary)
Recent labs and test results from physical exams and other related tests

- **Medical Test Results**
  The following tests are helpful in evaluating your health. Please review the list and bring in any test results that you may have already had in the past year. If you do not have current tests, we will ask that you make an appointment with your primary care doctor to gather the necessary results before or soon after your first appointment.

- **Labs**
  Please bring any bloodwork you have had done with your Primary Care Provider or any specialists you have seen in the past year.

- **EKG**
  Please bring a copy of your EKG and any other cardiac tests you have had in the past year.

---

**IMPORTANT INSURANCE INFORMATION**

LWB is a partner with you in the insurance approval process. We will help you in this process using our experience. At your first visit, please have as much documentation as possible. At that point, we will review your documentation and contact your insurance carrier to begin the approval process.

- If you have an HMO insurance plan, please make sure that you obtain an authorization letter from your primary care physician before your first visit.
- If your insurance has been approved for Gastric Bypass or LAP-BAND® surgery elsewhere, please notify us as this will speed up your insurance approval process.
- LWB is not in-network with all managed care plans. However, many policies have out-of-network benefits. Contact your insurance company for a full explanation of benefits.
- The hospital is most likely in-network with your insurance plan, which means your insurance policy will most likely cover a substantial amount of the hospital bill, if you are a surgical patient.
- LWB will bill your insurance company for the first appointment. Insurance companies frequently pay for clinic visits even if they deny surgery later.
- A $300.00 program fee will be required at your initial one-on-one visit.

*If you have questions, please call us at 866-922-4LWB (4592).*

**Financing:** If you do not have insurance or if your insurance carrier will not cover weight loss surgery or obesity treatment, you can look to LWB for help. Financing your surgery offers many advantages such as fixed rates and a simple application process. Please call us at 866-922-4LWB (4952) or ask us at your first visit.

You will be responsible for the cost of your first visit at the time services are rendered.
PATIENT INFORMATION RECORD
Please complete prior to your first appointment.
